# New Hybrid eBook/Print Book Format

A hybrid book consists of a traditional paperback book, containing puzzles and answers, and an on-line companion set of web pages for the print book, containing detailed step-by-step solutions for each puzzle, instructions for each puzzle type, and other information related to the paperback version of the book. Each print book title has a unique Internet web URL that points the reader directly to the eBook information for that particular print book. The URL for this book is:

<https://www.grouppuzzles.com/titles/B60C81F8/>

Hybrid books save paper while providing an enhanced reading experience. The Internet portion of the book that is accessible at this URL is very large and would make the printed version of the book around 10 times longer, if it was included. Most of this paper is wasted, however, if the reader is able to solve most of the puzzles on their own without the detailed per-puzzle step-by-step instructions and other information in the on-line eBook portion of the book.
